

WELCOME TO THE BEADCOOP NEWSLETTER

3/12/07

Erin go Bragh! Failte! (Ireland Forever and Welcome!) Everyone is a wee bit Irish this month... have you beaded something green to wear this week? It seems I don't get to bead much from March to October, because for me, show season is in full swing. I'm still a little groggy from the first show of the season this weekend. I do promise, however, that I will try to still come up with my share of patterns for the Coop! I can see that again, this last month, some absolutely wonderful patterns have been added, and one "wayward" designer has returned in full force! (Welcome back, Marianne!) If you haven't visited in awhile, shame on you! You don't know what you're missing!

As always, our Egg Hunt is in full swing. You can participate by going to this link:

This month's Pattern of the Month selection can be found here:

If you are a fan of flowers, you will love this month's POM! The Easter Bunny must have snuck in to deliver all these wonderful Eastery pattens! And I think it's possible, a leprechaun got jealous and added a wee bit o' the green in there as well ! Both the Egg Hunt and Pattern of the Month continue each month and have a rotating banner at the top of all coop pages. Please take advantage of these services and join in the fun!

The designers here at the Coop really enjoy designing (and beading) these patterns for you. Please feel free to send any of the designers feedback and tell them that you love their patterns or show them what you've done with them! (You can find email for each of them on the designers page). We try our best to make the patterns pleasing and affordable. We love hearing from you! Many of us love the challenge of making a pattern on request, or can even try to help with different stitches. Please tell your beady friends about www.thebeadcoop.com and help us become one of the premier pattern sources on line!

Thanks again for all your patronage and support. Without you, we wouldn't be here!
